

Freelancer Management system

What is it?

It is a web-based application and is set to replace the tedious manual process of managing Freelancers that is currently being used at Hyperli.

It will be used to:

- Organise freelancers.
- Organise tasks/ leads.
- Keep track of claimed tasks.
- Create an incentive for exceptional freelancer work.

What does it do?

Project by: Tanaka Gandidzanwa, James Tully, Sasha Chiketsani & Tonny Mtae

Supervised by: Prof. E. Scott; Prof. G. Mwalemba, Prof. W. Uys, Prof. M. Tanner
